## About Me

Hi, I am Arya and I am so interested in web development. I am always looking to improve myself. I love teamwork and communication with different people. I always try to be flexible to any opinion and criticism. In my life, after my family, my work is always my first priority. I believe that people always need to change in their life, then my ideas and lifestyle are always changing.

## Experience

### Develhope S.R.L. Palermo, Italy

June 2022 - January 2023

#### Junior Full-Stack Developer

7-months intensive course to become a Full Stack Developer. Here I learned front-end and back-end development with Html, CSS and Javascript, how to use Git and acquired the necessary skills on TypeScript. In the second part I deepened all the essentials of developing software in React.JS & Node.JS and developed a real web application with AGILE methodologies. Check out my Github profile here ... <https://github.com/aryakrm>.

### Turkish Language Private tuition

February 2020 - January 2022

I was Teaching Turkish language to the foreigners living in Turkey.
